If an “AMI” policyholder is **traveling**, not in the area of the address listed on the policy, in an area not supported by an “APPROVED SERVICE CENTRE” the claim procedure is as follows:

i) It must first be decided **if** the glass **repair/replacement** is **really necessary**. **If the vehicle is driveable**, that being with no impairment of vision or no missing piece of window glass, then the **Insured is expected to wait until they return to a supported area** to get the damaged glass repaired or replaced.

ii) Should the Insured require to get the damaged window glass repaired or replaced, they would be requested to go to the nearest glass shop, asking for the best “cash” price for the glass required, paying the glass shop themselves. They then would submit the paid invoice to our office for reimbursement less the applicable deductible. If this repayment option is not suitable the Insured would be asked to call the program administrator, during normal business hours, to arrange suitable payment options.

13. **Rental Car Coverage:** It is understood and agreed that if an Insured has rental car coverage on their auto policy their “AMI” policy will provide exactly the same **WINDOW GLASS** coverage that would have been provided under the rental car coverage, had the glass coverage not been deleted from their auto policy, **subject to the deductible that would apply to the rental car coverage.**

14. **Animal Collision:** It is understood and agreed that if an Insured has a loss involving animal collision the resulting glass damage will be covered.
